FAX RECEIVED

JAN 20 2003

1. (amended) An integrated optical monitoring system, comprising:
- a package;
 - an optical bench sealed within the package;
 - a fiber pigtail for transmitting an optical signal to the package;
 - a tunable filter, connected to a top of the bench, that filters the optical signal supplied by the fiber pigtail; and
 - a detector connected to the bench that detects the filtered optical signal from the tunable filter.
